#### PRECAUTIONS

Do not dismantle, open or shred secondary cells or batteries.  
Do not expose cells or batteries to heat or fire.  
Avoid storage in direct sunlight.  
In the event of a cell leaking, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical assistance immediately.  
Secondary cells and batteries need to be charged before use.  
Always store your power bank with at least a 50% charge in a cool and dry place to prolong the battery life. Storing while completely drained will reduce the capacity of the battery.
