PRECAUTIONS

Charging your device wirelessly with Airgo 10 Pro would fail if:
 - using a phone case with a magnetic/metal plate
 - using a thick (>5 mm) protective phone case
 DO NOT place any objects between your device and the power bank's surface, including metal pads, credit cards, door keys, coins, NFC cards, or other metal objects, as these foreign objects will make wireless charging fail and/or cause overheating.
 DO NOT dismantle, open or shred cells or batteries.
 DO NOT expose cells or batteries to heat or fire.
 Avoid storage in direct sunlight.
 Always store your power bank with at least a 50% charge in a cool and dry place to prolong the battery life. Storing while completely drained will reduce the capacity of the battery.

AIRGO 10 Pro POWER BANK
USER MANUAL

PRODUCT OVERVIEW

Congratulations on your purchase of Airgo 10 Pro! The Airgo 10 Pro is durable, powerful and compatible.

Wireless Charging

The Airgo 10 Pro is also a 10W/7.5W/5W compatible wireless charger, making it an ideal companion for your digital life while on the go.

Dual Input Port

The Airgo 10 Pro has two input ports (Micro USB and USB-C), giving you more choices to recharge it. It also supports 2A fast charge, so you can recharge your power bank much faster.

* Airgo 10 Pro comes with a 30cm charge-only cable with Micro USB connector and a leather travel pouch.

INSTRUCTIONS

Recharge Airgo 10 Pro

Recharge your Airgo 10 Pro with a power adapter that supports DC 12V=1.5A output for a rapid charge. A green LED indicates the power bank is recharging.

Charge with Cable

Connect your Airgo 10 Pro with a device using a suitable charge cable. The power indicator will show the current remaining battery level during charging. The power bank can charge up to 3 devices simultaneously.

Charge Wirelessly

Airgo 10 Pro is also a 10W/7.5W/5W compatible wireless charger. Push the power button to activate wireless charging. Put your wireless-chargeable device on the center surface of the power bank to charge it. A red LED indicates the device is being charged wirelessly. Press the power button twice to deactivate wireless charging.
