#### PRECAUTIONS

Do not dismantle, open or shred secondary cells or batteries.  
Do not expose cells or batteries to heat or fire.  
Avoid storage in direct sunlight.  
In the event of a cell leaking, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical assistance immediately.  
Secondary cells and batteries need to be charged before use.  
Always store your power bank with at least a 50% charge in a cool and dry place to prolong the battery life. Storing while completely drained will reduce the capacity of the battery.

#### PRODUCT OVERVIEW

Congratulations on your purchase of the Asha 10 Pro 10000mAh PD & QC 3.0 dual-port power bank!

The power to weight ratio and small size of Asha 10 Pro make it one of the most compact and lightweight power banks out there.

Asha 10 Pro also comes with two input ports - USB-A and USB-C, supporting both PD and QC 3.0 fast-charging protocols, giving you more choices and much faster speeds to recharge your devices.

The Asha 10 Pro has a multi-protection design at its core, ensuring a fast and safe charge for every device.

#### WHAT'S IN THE BOX

- User manual x1
- Asha 10 Pro x1
- 30cm charge-only cable with USB-C connector x1

#### INSTRUCTIONS

##### Recharge Asha 10 Pro

Recharge your Asha 10 Pro with a power adapter that supports Power Delivery for an optimal rapid charge. A blinking power indicator light indicates the power bank is recharging.

##### Charge Devices Using Asha 10 Pro

Connect your Asha 10 Pro with a device using a suitable charge cable. The power indicator will show the remaining battery level during charging. As the Type-C port can be used for both input and output, this power bank can fast charge two devices simultaneously via its USB-A and USB-C ports and provide a combined total output of 18W.

#### SPECIFICATIONS

Model Name: Asha 10 Pro  
Model No.: RRPB18  
Capacity: 10000mAh  
Rated Energy: 37Wh (3.7V)  
Battery: Li-ion (21700)  
Input: 5V=2A 9V=2A 12V=1.5A (Type-C)  
Output 1 5V=3A 9V=2A 12V=1.5A (QC 3.0)  
Output 2: 5V=3A 9V=2A 12V=1.5A (Type-C)  
Total Output: 18W Max
